II DAILY ENGINE · WHAT RUNS EACH DAY

- 1 read the broker → real positions, orders, equity (single source of truth)
- 2 screen the whole US market down to 7 names
- 3 protect, always → every position keeps a fresh resting stop (3.14x ATR chandelier)
- 4 trading day & HY OAS risk-on? → buy fresh breakouts, else no new orders
- 5 buy = resting limit-buy at the breakout, 9% equity – never a market order
- 6 send the daily Telegram PDF + heartbeat

III ONE TRADE · LIFECYCLE

screened (one of 7) → breakout limit-buy fills → long, resting stop trails up → stop hit
